Charter

The uniqueness of the GUC is what sets its students and staff apart from other academic centres across Australia; we are small in size, but large in community, offering students high quality programs, face to face support and flexibility throughout their study, all whilst living locally close to family and friends.

To uphold this vision GUC will:

- Provide a high quality learning experience through teaching, support and engagement, whilst maintaining a safe and healthy environment for learning.
- Match the students dedication to their study with support, guidance and advice throughout their degree.
- Provide access to relevant IT services, as well as library and support services, to enable students to pursue academic goals effectively.

In return GUC students will:

- Treat all GUC staff and peers with courtesy and respect; upholding the values of honesty and integrity.
- Take ownership of their learning through active class attendance and positive participation in pursuit of academic goals.
- Contribute to the culture of GUC, supporting relevant committees and activities which uphold healthy minds.
