

CL05 MASTERS OF TEACHING (SECONDARY)

Summary

The Master of Teaching (Secondary) is an initial postgraduate pre-service teacher education course for those who aim to pursue a career as a secondary school teacher.

Career opportunities

Upon completion, you will be qualified to teach in two discipline teaching areas: a major teaching area (Years 7 – 12) and a minor teaching area (Years 7-10). These teaching areas are based on your already completed undergraduate degree with a set number of units completed within that qualification per major and minor teaching area.

The course will provide you with the skills, knowledge and experiences necessary to positively impact student learning in secondary school classrooms across the two teaching areas.

In addition to building the professional knowledge and skills required to teach, the course is designed to foster your disposition for engaging in, and contributing to, the teaching profession through a commitment to ongoing professional learning.

The course is structured to include work-integrated learning as in-school practicum placements in each term of your study through the four Professional Praxis units.

The design of this course utilises CQUniversity's three Term structure, therefore you can complete the Master program in 16 months.

To be eligible for teacher registration, you are required to undertake and pass the National Literacy and Numeracy Test for Initial Teacher Educators (ITE) prior to graduation.

Study support at GUC

GUC offers this course in mixed mode delivery which includes online curriculum, resources and activities together with face-to-face tutorials.

At a glance

Study mode	• Mixed mode delivery
Courses/units	• 15/96
Prerequisites	• Three year non-education Bachelor degree or equivalent
Duration	• 16 months
Intake	• Semester One 2020

Next Steps

1. Contact GUC to express your interest.
2. Apply to CQUniversity
